Based on a complex query submitted using Pro-Cite bibliographic software and the Z39.50 protocol, these citations were compiled by searching the Library's online catalog for relevant publications using the Library of Congress Control Number (LCCN) to identify records added to the catalog in a given year. For recent catalog records, the first four digits of the LCCN indicate the year the record was first entered into the online system. In addition to materials about the country, the results may also include materials published in the country which concern other geographic areas. The publication date on the catalog record is used to determine whether the item meets the criteria for inclusion in this retrospective list. Because of the differences between the Ethiopian calendar and the Western calendar, some recently published materials may be cited on this retrospective list.

Because of the limitations inherent in any online catalog search, **do not rely on this document as a comprehensive or authoritative list of new acquisitions in the Library's collections.** The list is intended to give the reader only an idea of the wealth of materials which may be available for consultation. Search the Library's catalog for more a complete description of the status and availability of each item at: <http://catalog.loc.gov>.

Interested in recently published materials? Take a look at our **Africana Bibliographic Alert Service – Eastern Africa and the Western Indian Ocean (ABAS-EAIO)**.
